AIRCRAFT INTERIOR MATERIALS

We at AeroCom Metals pride ourselves in our comprehensive stocks specific to the Aircraft Seating and Interiors industry. Through innovative partnerships and supply programs, we have built our range of sheet, plate, bar, tube and extrusion products, in-line with American, British and European OEM interior builders and their subcontract base. This has made us market leaders in material support and supply.

PRECISION TUBES FOR AEROSPACE

AeroCom Metals have recently added further mill run materials in 2024, T45 and 4130 to cover contract demands and increase our current stock range. These are in stock in Coventry for immediate despatch, manufactured to all relevant WWT, AMS and BS standards by reputable, aerospace approved mills.
